

Do you have Huntington's Disease?

Would you be interested in Psychological Therapy?

At the University of Reading (UK) we have been exploring how people living with Huntington's disease manage everyday life. Learning from this, we have designed an online programme of **psychological therapy tailored for Huntington's**.

- ✓ We hope to hear from you if you are living with Huntington's disease (symptomatic or not) and would be interested in receiving four sessions of free psychological therapy conducted online as part of a research project.

Please contact us if you would like to know more about taking part in this research or if you have any questions about your eligibility to participate.

You can contact me (Dr Greig Adams) at G.r.adams@reading.ac.uk
